Advocacy for All's Young People's Project supports looked after young people aged 14 - 19 who have a learning disability and/or Autism to speak up and make their views and wishes known.

An Advocate can help the young person with problems or things they are unhappy about in their care setting. If you would like an Advocate, please go to our website to make a referral: www.advocacyforall.org.uk or call 0845 832 0044. You can also look at our leaflet if you want to know more.
